The LaTeX Beamer Implementation

Gabriele Mustermann, Max Mustermann

www.uibk.ac.at/statistics

Overview

Content: Aligned with the header above and the text from the university logo in the footer.

Subsequently: A tour of the most important functionality in the beamer theme.

Introduction

Itemized lists:

- Level 1
  - Level 2
    - Level 3

Enumerated lists:

1. First item
2. Second item
3. Third item

Formatting

Highlighting: bold, *italic*, UIBK blue, UIBK orange, . . .

Predefined colors:

- blue (`uibkblue`)
- light blue (`uibkbluel`)
- orange (`uibkorange`)
- light orange (`uibkorangel`)
- gray (`uibkgray`)
- medium gray (`uibkgraym`)
- light gray (`uibkgrayl`)

Beamer blocks

Block

This is a block.
Uses `uibkblue` and `uibkbluel`.

Alert block

This is an alert block.
Uses `uibkorange` and `uibkorangel`.

Example block

This is an example block.
Uses `uibkgraym` and `uibkgrayl`.

Good to know

Commands: For code/data formatting provided by this beamer theme.

Command	Output example
`\fct{...}`	`example()`
`\class{...}`	“`example`”
`\pkg{...}`	*example*
`\email{...}`	`example@email.org`
`\doi{...}`	`doi:10.1234/example`
`\file{...}`	`example`
`\dataset{...}`	`example`

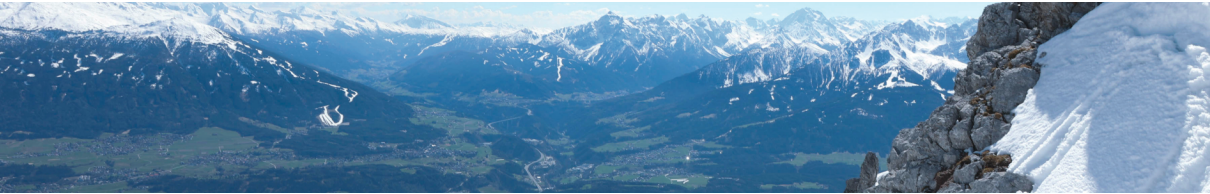
Installation

Presentation slides:

- Copy both the file `beamerthemeuibk.sty` and the entire folder `_images`.
- Either to your local working directory. . .
- . . . or to your TEXMF tree (*recommended*), e.g., `texmf/tex/latex/uibk-beamer/`.
- Start with the file `slides.tex`, containing the sources for this demo along with many useful hints and comments in the source code.
- Compile with `xelatex` or `pdflatex`.

Posters:

- Additionally copy `beamerthemeuibkposter.sty`.
- Use `poster.tex` as the starting point.



Thank you for your attention!
